## CALL SCRIPTS: PIQUE & PASS

---

Hi \_\_\_\_\_ its \_\_\_\_\_. Have you got a minute to talk? (Pause and wait for response) Great listen, I was just introduced to a company that is showing people how to get paid when people turn on lights & cook dinner & it's about to be featured on Prime-time TV!! I am really excited about it and wanted to share it with you.

In fact, I am sitting here with one of the top executives in the company who can give you a really brief overview, I only have a few minutes of their time, hold on one second this is Mr/ Ms \_\_\_\_\_ (Hand the phone to expert)

## CALL SCRIPTS: 3-WAY CALL

---

So \_\_\_\_\_ how do you know \_\_\_\_\_? OK and what do you currently do for a living? Great and how much do you know about what we are doing?

No problem, let me tell you a little about what is happening. Again, my name is \_\_\_\_\_ {share your story less than 30 seconds} \_\_\_\_\_, Are you aware that energy deregulation is sweeping the country and will allow us to have a choice of who provides our electric and gas services? Well this choice has provided an opportunity for average people to actually make money when people turn on their lights and heat their home.

The company that is making this possible is an 18 year old company operating in 21 countries on 4 different continents around the world with thousands of employees and millions of customers already. The company itself is endorsed by a multi-billionaire and its technology has been featured on The View, Fox Business news and Prime-time TV.

The best part is besides offering energy services; we offer Telephone, Mobile Phones, Internet, and Digital Video Technologies as well.

So, , does the concept of getting paid when people turn on their lights, heat their home, or make a phone call make some sense to you?

Great, then we need to get you in front of all the information. I can do that at \_\_\_\_\_ or on \_\_\_\_\_...which time slot works best for you? Great, I look forward to meeting you then.
